multi-head weigher with automatic punnet filler

for plums, nectarines,
clementines, peaches,
kiwi fruit, tomatoes,
cherry tomatoes and
similar products

- Robustly constructed in stainless steel
- Gentle product handling with low drops
- Pack weight programming in seconds
- Automatic taring
- Capable of running with one or more channels disabled
- Reversible cross conveyor can be used for product feed into other systems, e.g. more than one packaging option
- Uses premade punnets, also clam shells
- “No punnet - no product” system
- Shaking system to settle product
- Self diagnostic electronics
